INTERNSHIP

Cloud Paradigm Software Pvt Ltd, Bengaluru | Salesforce

Worked on a project for Cloud Paradigm. The main objective of the project is to automate the existing manual supply chain process in a hospital. A part of this project (Vendor Tracking and Performance) is my final year project as well.

VTU-NASD, Dandeli | IoT

Training and Internship on the fundamentals of the Internet of Things.

PROJECTS

- **Smartphone Arena Management System:** Developed a Database and Web Application for purchasing Smartphones.
- **Cricketers Database Management:** Developed a Cricketers data Management System using Visual Studio and File Structures.
- **Mid-day meals Inventory Scheme:** Developed a system that managed an inventory for issuing food items for the Mid-day meals scheme using HTML and CSS.
- **Project Tracking and Vendor Performance:** This was a part of the project we did at Cloud Paradigm. We developed a System to award a Vendor who has been assigned with a BOM and evaluate the performance of the awarded Vendor using Salesforce.
